Kevin

Two best options for their budget:

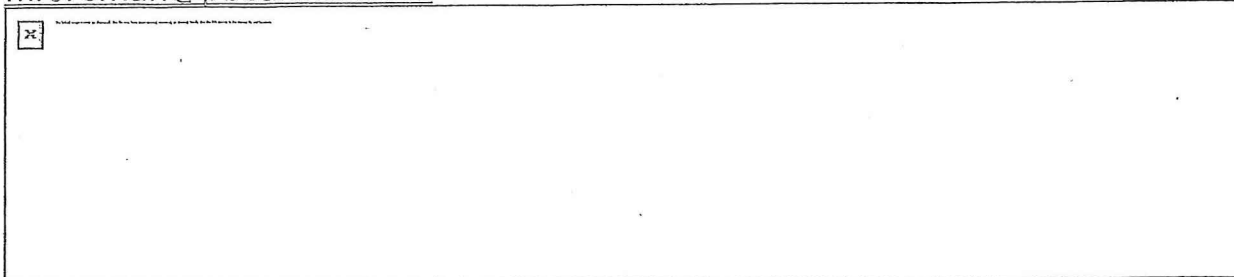

- ◊ Speed Plate Plus
- ◊ Steel Plates (best low cost price)

See attached. Remember export license required to Haiti.

Mike

The Haitian chief of police informed me of the attack yesterday and concerned more attacks may follow. I was informed that the militants used 5.56 caliber rounds to assault through the police Headquarters. The Chief wants to see light weight ballistic Kevlar for some of his guys. I will be going down there first week of June with some simples and other items to show them. Thanks
